Google's Initiatives and Microsites

[Google in Education](#) is the central spot for all our education related resources for educators and students. It introduces products and tools that can help to transform teaching, assembles best practice examples from all over the world and hints to training programmes, competitions and scholarships.

[YouTube for Schools](#) brings the power of video to the classroom in a controlled and school-appropriate environment. The technical setup allows the access to teacher-chosen content while it limits the access to non-educational content during classes. One effort to support teachers address YouTube and Digital Citizenship in class is our YouTube Curriculum, another helpful resource is the [YouTube Playbook for Educators](#).

[Google.org](#) is our philanthropic and charitable arm. The [Global Impact Awards](#) support organizations using technology and innovative approaches to make the world a better place. Our engineers develop products to help people in times of need. Nonprofits receive [support](#) through free and discounted ads, apps and products. One of the focusses of Google.org is education in general, STEM education, equal access to education and girls' education in specific. Also, fighting human trafficking, finding missing children and crisis response have been important issues.

[Google Cultural Institute](#) is a partnership with hundreds of museums, cultural institutions, and archives to host the world's cultural treasures online. Thus, the site not only helps to preserve the world heritage but also offers various impulses for teachers to explore history and arts in an immersive and self-paced way.

Collaborate Initiatives

Websites dedicated to positive online content for children. [fragFINN](#) is child-appropriate search-engine based on a supervised whitelist of approx. 10.000 domains, [juki](#) is an interactive video platform for Internet starters aged 8 to 12 that enables creative expression and digital participation.

Digital literacy workshop programmes with a country-wide outreach to students, teachers and parents, for example in [Italy](#) in cooperation with UNICEF, in [Czech Republic](#) or Media Literacy Week in [Canada](#).

The Web We Want: pan-european handbook for self-learning, classroom or peer-to-peer education [The Web We Want](#).

[THINKB4U](#) interactive video storytelling campaign in the US, the Russian online game on safety and security [Internet Laboratory](#) or the Greek illustrated children's book and interactive theater play [The Internet Farm](#).

Web Rangers workshop: [Israel](#), [Czech Republic](#) and [New Zealand](#)

Video contests: [Well Versed](#) project in the UK, [Now You Know Challenge](#) in Singapore and [361 Degrees Respect](#) in Germany.

STEM education and code literacy: [Mind the Gap](#) programmes that encourages girls for STEM, the [Computer Science Education Week](#) or the Raspberry Pi projects in [UK](#) and [Japan](#).
